Example: Assessment Findings Detail

Curve 1	Curve 2	Curve 3

Technology & Tools
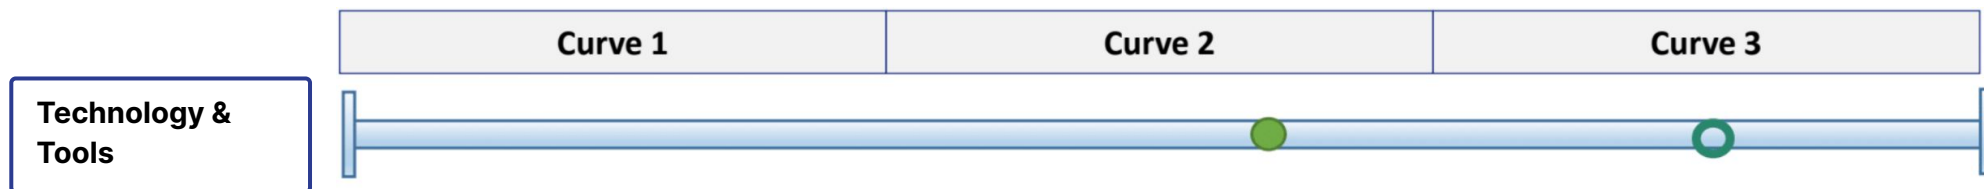

Accomplishments

✓ Completed more than 50%, but less than 100%, of the criteria for curve 2

✓ Telehealth platform is EHR integrated and HIPAA compliant

✓ Enabled video telehealth

✓ Have begun to deploy patient devices and data plans on request

Gaps

• Have not deployed RPM (but have plans to do so)

• More than 50% of visits are telephonic vs video

• Not integrating specialists into telehealth yet

Barriers

• Do not have funds to pay for smart phone devices for all patients to enable 100% video visit

Next Steps

❑ Execute plan to begin providing pulse oximeters to home bound patients

❑ Move at least 75% of telehealth patient visits to video by September 30, 2020

❑ Begin to explore how to integrate specialists via provider-to-provider consults
